

TACIT STEADY GROWTH STRATEGY

AS AT 31 AUGUST 2018

INVESTMENT OBJECTIVE

The investment objective is to grow the capital value of the portfolio. The Tacit Steady Growth Strategy is designed for an investor with a time horizon of more than 7 years, and a higher tolerance for risk that can accept significant variation or disruption to capital value or current income in order to achieve their longer-term objective.

Within the Tacit Steady Growth Strategy, we would expect to maintain approximately three quarters of your funds in growth or real assets such as equities, property and commodities, which may exhibit higher short term volatility, when compared with lower risk asset classes.

This weighting to growth assets can be tactically adjusted to take account of prevailing market conditions but we would not expect this to exceed 85% for a prolonged period at any time.

SUITABILITY

This portfolio may be suitable for investors needing to grow their assets but cannot tolerate the drawdowns experienced by investing into equities alone. The aim is to achieve a total return greater than inflation in their portfolio over seven years or longer.

KEY RISKS

- + Equity market volatility rises
- + Inflation outstrips the return achieved
- + Change in risk appetite during volatile periods

PORTFOLIO HOLDINGS

		% OF TOTAL ASSETS
1	AXA US SHORT DURATION HIGH YIELD BOND FUND	10.0%
2	JOHCM UK EQUITY INCOME FUND	10.0%

		100.0%

Ongoing Charges Figure (OCF): A measure of the total costs associated with managing and operating a fund. The OCF consists primarily of the management fee plus other expenses such as trustee, custody, or operating expenses. It is expressed as a percentage of the fund's total net asset value.

Distribution Yield: The distribution yield represents the ratio of distributed income over the last 12 months.
